Work experience

Frontend Intern
Mar, 2021 - Present

Zuri. Training

- A 4-month long remote tech training aimed at getting one started in the industry

- It offers collaborative learning, hands-on experience working on real life projects and a great mentorship opportunity.

- The Frontend path would take me through the basics of HTML,CSS, Javascript and React

Frontend Intern
Aug, 2020 - Dec, 2020

StudentBuid Study Group powered by INGRESSIVE FOR GOOD

- I learned the basics of Web Development technologies, HTML, CSS and Javascript

- I learned to build responsive webpages with CSS3

- I learned to use the Twitter Bootstrap CSS Framework

- I learned to work collaboratively in a team with Version Control technologies like Git and Github

- I used the knowledge gained from the internship to build an Ecommerce website (here https://sticklo.github.io/capstone-project/) a restaurant website (here https://sticklo.github.io/module-5/).
